Lekha Nigam

Hyderabad, India
+91-9451600479 | lekhanigam1221@gmail.com | LinkedIn | GitHub | HackerRank

Skills

Languages: Python, SQL
Machine Learning: scikit-learn, XGBoost, regression, classification, K-Means clustering, forecasting, feature engineering, model validation
NLP & GenAI: LLMs, prompt engineering, RAG, text classification, information extraction, LLM evaluation
Data & Statistics: pandas, NumPy, EDA, hypothesis testing, A/B testing, cohort and funnel analysis
MLOps & Cloud: Git, CI/CD, ML pipelines, model versioning, monitoring, AWS (S3, Athena, EC2, ECS), MongoDB, Flask
BI & Tools: Power BI, Tableau, Metabase, Advanced Excel, Jupyter, VS Code, Google Analytics

Experience

Ashoka Builders India Pvt Ltd (ASBL) Hyderabad
Growth Associate - Data Science Nov 2024 - Present

- **Market Intelligence System (RE · ANALYZE):** Built a pipeline that combines data from 7 real-estate sources into one clean dataset of 43,022 Hyderabad projects, using source-priority rules, fuzzy deduplication ($\geq$0.85 similarity) and quality checks.
- Enriched amenities for 10,949 projects using Gemini Flash, and built a Flask + MongoDB API with map-based dashboards (Leaflet, ECharts) to analyze any locality or radius.
- Analyzed 500 survey responses for a new launch, finding that 61% of buyers preferred 3 BHK, the median budget was INR 1.71 Cr, and demand for gated communities rose from 25% to 43%; used this to validate 3 buyer personas.
- **Prospect Intelligence Model (KALBHOJADITYA):** Developed an XGBoost model that ranks 20,000+ prospects across 6 projects into 4 intent tiers using CRM, site-visit, call and WhatsApp data; it has run daily since Aug 2025, and the top tier converts at 3.2$\times$ the average.
- Created 60+ behavioral features from a 1.2M+ lead CRM and validated on later time periods to avoid leakage, reaching 0.84 ROC-AUC; extended the approach to 200K+ early-stage leads with a second model.
- **CRM Email Intelligence (SAMVAAD):** Built an LLM pipeline that sorts 15,000+ customer emails by issue type and resolution status with 90% accuracy, identifying 12 recurring issues and reducing manual review by 70%.
- **Conversational AI Assistant (AVA):** Built a RAG chatbot on 200+ curated documents, and used a 300-question test set to find and fix weak answers, improving accuracy from 72% to 91%.
- Moved ML pipelines to production on AWS with versioning, CI/CD, daily scoring and monitoring, cutting model refresh time from 2 days to under 1 hour; migrated a voice-agent backend to ECS Fargate.
- Built 12+ Metabase dashboards tracking lead funnel, marketing and sales KPIs for 20+ stakeholders, saving 10+ hours/week of manual reporting.

IBM SkillsBuild - CSRBOX Remote
Data Analyst Intern Jun 2024 - Aug 2024

- Performed exploratory and correlation analysis on 15+ years of CO2, global temperature and sea-level data, finding a 0.9+ correlation between CO2 concentration and temperature anomaly.
- Built Power BI dashboards and Excel models for recurring sustainability reporting, improving reporting efficiency by 30%.
- Applied regression and time-series decomposition to separate long-run trend from seasonal and short-term variation.

Education

Ajay Kumar Garg Engineering College Ghaziabad
B.Tech, Computer Science and Engineering | CGPA: 8.25/10 2021 - 2025

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Software Engineering, Information Retrieval, Image Processing

Certifications

Machine Learning Specialization (Coursera) | Data Science in Real World (IBM SkillsBuild) | Data Analyst Skillpath (Udemy)

Achievements

- Founded and run an educational YouTube channel with 12,000+ subscribers and 1,400+ videos, teaching students across multiple batches.
- Runner-up, Code-a-Thon '23 (100+ teams); Finalist, Hacktivate 2K23 and Technothon '23.
- College Coordinator and HR Head, Slum Swaraj Foundation (NGO), leading a team of 30+ volunteers.
